

Primary care practice nurses - we need your views!

Physical activity and physical function in general practice

Your participation will help design a new way of working in GP surgeries to help reduce the decline in physical function and physical activity that can occur in people who have long term conditions (e.g. diabetes, arthritis, high blood pressure).

Telephone interviews will be held in September (at a time convenient to you) and will take a maximum of 1 hour.

Participants will be gifted a £30 shopping voucher as thanks for taking part.

You will also be invited to attend a co-design workshop taking place in Bangor, North Wales (travel & subsistence reimbursed):

Friday 11th October 2019

Monday 11th November 2019

Friday 6th December 2019

To find out more about taking part, please contact Rebecca Law:
r.law@bangor.ac.uk
