

PRIME's new SUPER group

QUESTIONS FOR RESEARCHERS...

Are there patients or public involved in your research?

IF NOT, WHY NOT?
This is how to put it right ...

Don't wait another minute – there is a new SUPER group to work with PRIME Centre Wales researchers. SUPER means **Service Users for Primary and Emergency Care Research**. SUPER members have different backgrounds and experiences reflecting the diverse experiences of people in Wales. SUPER wants to be involved in primary and emergency care research.

You have three new choices TODAY!

1. Visit the SUPER stand at this conference
2. Email requests for SUPER input to your research
3. Present your research idea at the next meeting of the SUPER group

To contact SUPER, email b.a.evans@swansea.ac.uk

Prudent healthcare: "Achieve health and wellbeing with the public, patients and professionals as equal partners"
