

A new programme of research leading to
**prompt referral
faster diagnosis
and better outcomes
for cancer patients
in Wales**

**WICKED (Wales Interventions and Cancer
Knowledge about Early Diagnosis)**

How can a GP get involved*?

- spend a few minutes filling in our online survey
- take part in a telephone interview
- take part in a focus group with your practice team

What can a GP do next? A researcher from Bangor University will contact all general practices in Wales in early 2017, but if you would like any further information, or to register your interest in the project, you can email: Maggie Hendry (Programme Director): m.hendry@bangor.ac.uk, or call 01248383511

CANCERRESEARCHWALES
YMCHWILCANSERCYMRU

* we will reimburse you for your time, either as a payment to you/your practice or as a donation to Cancer Research Wales

Plan of the WICKED research programme
